Here is my revised version. It mainly focuses on the tiering process and criteria, rather than the actual issues at stake in the OOOOa rule.

Once you all review and comment, does this go to Ed or Eileen?

How do we get the issue flagged for Bob? He supposedly has an Early Guidance meeting on Friday with the Administrator on the Policy Issues rulemaking – just FYI if he would like to engage on this parallel issue of the Technical Issues rule tiering.

Subject: draft OOOOa memo

Attached is my draft memo on the OOOOa reconsideration and tiering. I'll take another look at it on Monday morning, but if you have time to review and comment, I'd appreciate it.

The "Draft OG..." document is what was provided to the workgroup members from OAQPS, and the "Oil Gas rule EG...." doc is what OECA is briefing to their management on Monday (not sure exactly who).
